TWO-YEAR ROSE BUSHES

We offer the following rose bushes as being the best of all roses introduced up to the present time. Their sterling qualities consist of good foliage, choice flowers and excellent habits of growth. Many varieties are absolutely proof from mildew. Orders will be filled with nothing but strong two-year field grown plants, which if carefully planted and severely pruned will flower lavishly the first season. All varieties listed are in stock. We substitute varieties as nearly similar as possible in cases where stock is sold out unless orders are marked "No Substitution." This however, is rarely necessary until late in the season.

We pack securely for Parcel Post or Express shipments and PREPAY THE CHARGES to all points in Washington, on orders amounting to \$3.50 or more.

OUR MOTTO is strong plants that give immediate results.

ABBREVIATIONS USED

A. B.—Austrian Brier or Pernetiana.

H. T.—Hybrid Tea.

H. P.—Hybrid Perpetual.

H. Poly.—Hybrid Polyantha.
